Contents

NUMBER 1 FEBRUARY 1988

- 1 Effects of propranolol and verapamil on plasma ionized calcium and parathyroid hormone in short-term intense isokinetic leg exercise
H. Joborn, R. Bergström, J. Rastad, L. Wide, G. Åkerström and S. Ljunghall
- 9 The low physical working capacity of thyrotoxic patients is not normalized by oral antithyroid treatment
L. Sestoft and B. Saltin
- 17 Calf muscle adaptation in intermittent claudication. Side-differences in muscle metabolic characteristics in patients with unilateral arterial disease
E. Jansson, J. Johansson, C. Silvé and L. Kaijser
- 31 Angiotensin II attenuates reflex decrease in heart rate and sympathetic activity in man
K. Sander-Jensen, N. H. Secher, A. Astrup, N. J. Christensen, M. Damkjær-Nielsen, J. Giese, J. Warburg and P. Bie
- 41 Measurement of global and regional left ventricular performance with isotope technique in coronary heart disease
P.-Å. Boström, M. Svensson and B. Lilja
- 51 Left ventricular volumes during graded upright exercise in healthy untrained subjects
H. Kelbæk, N. J. Christensen and J. Godfredsen
- 57 Changes in atrial natriuretic factor during preload reduction with nitroglycerin in patients with congestive heart failure
N. Keller, R. Sykulsy, G. Thamsborg, T. Storm and J. Larsen
- 65 Abstracts from the 7th Scandinavian Congress of Clinical Physiology
- 90 Instructions to Authors

NUMBER 2 APRIL 1988

- 93 Determination of the mean transit time for the transport of aerosolized ^{99m}Tc -DTPA across the pulmonary epithelial membrane. A plasma sample method
S. Groth, N. A. Lassen and N. Rossing
- 105 Pulmonary clearance of inhaled ^{99m}Tc -DTPA: effect of the detergent dioctyl sodium sulfosuccinate in aerosol
E. Evander, P. Wollmer and B. Jonson
- 113 Total lung capacity measured by body plethysmography and by the helium dilution method. A comparative study in different patient groups
L. G. Anderson, I. Ringqvist and A. Walker
- 121 Non-invasive evaluation of the long-term results of coarctectomy in childhood
I. Wallentin, E. Hanson and B. O. Eriksson

Contents

- 129 Potassium and myoglobin release and ST and QRS vector changes during acute myocardial infarction
C. Sylvén and M. Sederholm
- 137 Plasma lipid and lipoprotein profile in elderly male long-distance runners
M. Higuchi, T. Fuchi, K. Iwaoka, K. Yamakawa, S. Kobayashi, T. Tamai, H. Takai and T. Nakai
- 147 The effect of exercise on platelet beta-adrenoceptor function and platelet aggregation in healthy human volunteers
K. Winther and J. Trap-Jensen
- 155 Atrial natriuretic peptide during acute treatment of congestive heart failure
H. Berglund, S. Bevegård, P. Carlens, J. Hedner and T. Hedner
- 163 Comparison of forearm plethysmographic methods with brachial artery pulsed Doppler flowmetry in man
M. E. Safar, J. E. Daou, A. Safavian and G. M. London
- 171 Venous circulation after fasciotomy of the lower leg in man
S. Rosfors, S. Bygdeman and R. Wallensten
- 181 Effects of chronic sympathectomy on muscle fibre composition. ISO-myosin patterns, protein synthesis and calcium content in canine gracilis muscle
J. Karlsson, P. Cummins, H. J. Smith, P.-O. Berggren and T. Saartok
- 193 Altered balance in the autonomic system in schizophrenic patients
B. M. Nielsen, J. Mehlsen and K. Behnke
- 201 **Instructions to Authors**

NUMBER 3 JUNE 1988

- 203 Kidney, lower limb and whole-body uptake and release of catecholamines in alcoholic liver disease
J. H. Henriksen, H. Ring-Larsen and N. J. Christensen
- 215 Human tibialis anterior contractile responses following fatiguing exercise with and without β -adrenoceptor blockade
S. E. Alway, R. L. Hughson, H. J. Green and A. E. Patla
- 227 Leg exchange of amino acids during exercise in patients with arterial insufficiency
F. Lundgren, H. Zachrisson, P. Emery, A.-C. Bylund-Fellenius, A. Elander, K. Bennegård, T. Scherstén and K. Lundholm
- 243 Excretion of thromboxane A_2 and prostacyclin metabolites during treadmill exercise in patients with intermittent claudication
Å. Wennmalm, A. Edlund, B. Sevastik and G. A. Fitzgerald
- 255 Prostacyclin and regional coronary blood flow in experimental myocardial infarction
K. Herbaczynska-Cedro, E. Karwatowska-Prokopczuk, J. Michałowski and Å. Wennmalm with technical assistance of Marek Wozniak

Contents

- 267 Myocardial turnover of plasma free fatty acids during angina pectoris induced by atrial pacing
L. Kaijser, M. Ericsson and G. Walldius
- 287 Cardiovascular effects of positive end-expiratory pressure during acute left ventricular failure in dogs
O. Hevrøy, O. Reikerås, O. Grundnes and O. D. Mjøs
- 303 Regional blood volume in man determined by radiolabelled erythrocytes
S. Fløistrup Vissing and S. Levin Nielsen
- 309 Glomerular filtration rate estimated from a single plasma sample after contrast-enhanced radiological examinations
M. Boijesen, L. Jacobsson and U. Tylén
- 317 Density dependence of expiratory flow—a useful basis for lung function tests?
R. Sixt and B. Bake

NUMBER 4 AUGUST 1988

- 329 Spirometry in healthy adult never-smokers
H. Oxhøj, G. M. Jeppesen, V. H. Larsen and B. Jørgensen
- 341 Does airway closure affect lung sound generation?
A. B. Bohadana, J. F. Kanga and S. S. Kraman
- 351 Ventilation-perfusion inequality during endotoxin-induced pulmonary vasoconstriction in conscious sheep: mechanisms of hypoxia
P. C. Hüttemeier, C. Ringsted, K. Eliassen and T. Mogensen
- 359 The role of the endothelium in the control of venous tone: studies on isolated human veins
O. Thulesius, L. Ugaily-Thulesius, P. Neglen and H. Shuhaiber
- 367 Muscular venous blood metabolites during rhythmic forearm exercise while breathing air or normoxic helium and argon gas mixtures
D. Douguet, J. Raynaud, A. Capderou, C. Pannier, G. Reiss and J. Durand
- 379 Cardiac function in open-chest dogs after left to right ventricular shunting and right coronary artery occlusion
O. Geiran, J. Thorvaldson and A. Ilebekk
- 391 Coenzyme Q₁₀ content in different parts of the normal human heart
L. Lin, P. Sotonyi, E. Somogyi, J. Karlsson, K. Folkers, Y. Nara, C. Sylvén, L. Kaijser and E. Jansson
- 399 Glomerular filtration rate in adults estimated from ¹²⁵I-iodine-hippuran and ^{99m}Tc-technetium-diethylenetriaminepenta-acetic acid gamma camera renography
O. Carlsen and E. Nathan
- 407 Plasma renin activity and oxygen content along the renal veins in hypertensive patients
B. Tidgren and U. Brodin

Contents

- 417 Whole body fat oxidation before and after carnitine supplementation in uremic patients on chronic haemodialysis
K. Lundholm, H. Persson and A. Wennberg
- 427 Measurement of oxygen and carbon dioxide partial pressures in synovial fluid after tonometry
P. Geborek, B. Kindoff and S. O. Valind
- 433 The effect of IV indomethacin on the gastric mucosal electrical potential difference and blood flow in anaesthetized dogs
L. Højgaard, H. Ewald, I. E. Holm, C. Bünger, E. Krag and J. B. Bülow

443 Instructions to Authors

NUMBER 5 OCTOBER 1988

Original communications

- 445 Physical training plasma lipoproteins and faecal steroid excretion in sedentary men
W. H. F. Sutherland, E. R. Nye, C. P. Boulter and A. Shelling
- 453 Improved working capacity following theophylline infusion in patients with ischaemic heart disease
A. Edlund, R. Söderberg and P. Henriksson
- 463 Changes in coronary haemodynamics and myocardial metabolism at rest and during exercise after cardiotonic drug (prenalterol) in patients with coronary artery disease
A. Westheim, E. Bae, C. C. Christensen, E. Fønstelein, H. Grendahl and O. Muller
- 475 Left ventricular performance during exercise in long-term type 1 diabetic men: an echocardiographic study
R. Danielsen, J. E. Nordrehaug and H. Vik-Mo
- 487 Difference between beta-1-selective and non-selective beta-blockade during continuous and intermittent exercise
L. Gullestad, L. Ø. Dolva, E. Søyland and J. Kjekhus
- 501 The difference in blood pressure between upper arm and finger during physical exercise
J. A. Nijboer, J. C. Dorlas and J. Lubbers
- 511 Respiratory sinus arrhythmia and carotid baroreflex control of heart rate in endurance athletes and untrained controls
M. J. Reiling and D. R. Seals
- 521 Skeletal muscle characteristics in children 9–15 years old: force, relaxation rate and contraction time
E. Bäckman and K. G. Henriksson
- 529 Physical working capacity determined by different types of bicycle exercise tests
L. Wallin and L. H. Brudin

539 Instructions to Authors

Contents

NUMBER 6 DECEMBER 1988

Review article

- 541 Magnetic Resonance in clinical physiology
O. Henriksen, J. Møgelvang and C. Thomsen

Original communications

- 561 Multiple breath nitrogen dead space
M. Arborelius, H. E. Rosberg and R. Wiberg
- 577 Plasma dihydroxyphenylglycol (DHPG) as an index of diabetic autonomic neuropathy
N. G. Christensen, A. Degjaard and J. Hilsted
- 581 Role of pulmonary diseases and physical condition in the regulation of vasoactive hormones
E. Hietanen, J. Marniemi, K. Liippo, A. Seppanen, J. Hartiala and O. Viinamaki

591 **Instructions to Authors**

593 **Author index**
